BIG ISSUE OF NOTES

Senator Clay, of Georgia, Wants Issue of $350,000,000.

ARE TO BEAR NO INTEREST

Will Be Payable to Bearer on Demand and Be Lawful Money and Legal Tender of the Government—Bill for Emergency Currency.

Washington, Jan. 11.—Senator Clay has introduced a bill which was referred to the committee on finance authorizing the secretary of the treasury to issue on the credit of the United States $350,000,000 of non-interest bearing United States notes in addition to the United States money in circulation in such form as he may deem expedient. The proposed notes are to be issued in denominations of not less than $1, to be payable to the bearer on demand, and to be lawful money and legal tender. They are to be deposited in depositories under existing law by the secretary of the treasury. Deposit of the United States bonds and state, county and municipal bonds as security for the safekeeping of these public moneys is to be required and the payment of interest at the rate of 5 per cent will be exacted on these deposits. The secretary is required to distribute these deposits equitably among the several states according to population.

An amendment to the Aldrich currency bill was introduced by Senator Nelson of Minnesota. It provides that one-third of all taxes to be paid by the national banking associations upon the average amounts of their notes in circulation shall be set apart in the treasury as a guaranty fund for depositors to the amount of their deposits in any bank that may become insolvent. This fund is not to be allowed to exceed $10,000,000.

Senator Bulkely introduced a bill providing for emergency currency to be issued by banks through the comptroller of the currency with the approval of the secretary of the treasury in amounts equal to the par value of the bonds to be deposited with the treasurer of the United States. It provides that United States bonds, Panama canal bonds, bonds of any state, county or city, or town, or municipality, of not less than 50,000 population may be accepted for such purpose. No bonds of a state, county or municipality that has defaulted in payment of principal or interest on any of its bonds in the past shall be received for this purpose.

PARADE OF UNEMPLOYED.

Thousands March in Cincinnati to the City Hall.

Chicago, Jan. 11—A dispatch to the Tribune from Cincinnati, O., says:

A parade of thousands of unemployed marched to the city hall Friday, where a delegation held a conference with Mayor Markbreit and the city officials.

It was represented to the mayor that the closing down of the factories because of the money stringency had thrown thousands of men out of work and that suffering was widespread.

The spokesman requested aid and work. The mayor notified him that steps had been taken to appropriate $20,000 for immediate relief. Arrangements have been made for opening bread depots, soup houses and shelter places.

TRAFFIC IS RESUMED.

Southern Wreck Cleared Away—One More Death Results.

Atlanta, Jan. 11.—The wreck at Hiram has been thoroughly cleared away, a new trestle constructed and traffic over this section of the road was resumed when the "Florida Special," No. 6, passed over the bridge shortly after noon on Thursday.

General Superintendent H. E. Hutchinson, of this district, is making a personal investigation of the wreck, and his report will be made to the heads of the Southern railway within the next few days.

The cost of the wreck to the Southern railway cannot be accurately calculated until settlements are made with the victims of the wreck, but the damage to equipment, hospital and physicians' bills, hotel bills and other charges to be met as outgrowths of the wreck will amount to a staggering figure. It is calculated that hotel, hospital and physicians' bills will reach $600 per day, and that the net loss in the equipment will amount to the sum of $30,000.

One more death resulted from the wreck Thursday, that of Alexander Forrester, a wealthy retired business man of Cleveland, O., who died in the Atlanta hospital on Cone street.

CONFERENCE SOUGHT BY A. C. L.

Governor Ansel Agreed to Meet Coast Line Officials Monday.

Columbia, S. C., Jan. 11.—A verbal request was made Thursday by long distance telephone for a conference with Governor Ansell, Attorney General Lyon and the railroad commission by Atlantic Coast Line officials. It was stated in the request by P. A. Wilcox, division counsel for the railroad, that the conference was to be along the same lines as the conference recently held by Mr. Finley and other officials of the Southern, at which time a substantial reduction in passenger rates in South Carolina was proposed.

Mr. Willcox did not state positively that these reductions would be made on his lines, but Mr. Finley predicted that all roads would come to the same agreement, and as soon as this is done the mileage would be interchangeable, and would probably extend to other states if the agreements were satisfactory. Governor Ansel agreed to meet the officials Monday.

LYNCHED BY HIS OWN RACE.

North Carolina Blacks Take Revenge For Being Faked.

Charlotte, N. C., Jan. 11.—A long distance telephone message from Selma, N. C., reports the lynching at Pine Level, Johnston county, of a negro at the hands of a negro mob.

The strange negro, purporting to be an advance agent of a "big show," faked the negro residents into attendance on what turned out to be a one man performance by the strange darkey himself. Their heads covered with guano sacks the mob entered the negro's boarding house early Tuesday morning and took him forcibly to the woods. His body was found at daylight on the Southern railroad tracks. His identity has not been established.

Black Eye for Dispensaries.

Montgomery, Ala., Jan. 11—If a decision rendered by Judge J. C. Richardson, at Greenville, holds good, every dispensary in Alabama will be forced out of business at once. He held that all laws establishing dispensaries are unconstitutional because they establish a monopoly which is obnoxious to state and national organic law.

APPEAL TO HIGHER COURT.

Cases of Schmitz and Ruef, Alleged 'Frisco Grafters.

San Francisco, Cal., Jan. 11—Eugene E. Schmitz and Abrahma Ruef, the two alleged grafters who received a decision in their favor Thursday from the district court of appeals, are both in the county jail in custody of the new sheriff.

An effort will be made to have their bonds reduced.

Schmitz is held on forty-five indictments with bonds to the amount of $400,000. Ruef is held on 122 indictments, his bonds amounting to $1,170,000.

If their request for reduction is not complied with in the lower court, both will take the matter direct to the supreme court. The cases of Patrick Calhoun, Thornwell, Mullally, William M. Abbott, Tirey L. Ford, Ruef, Schmitz and Former Supervisor F. P. Nicholas, come up for trial for bribery charges at the same time.

According to the statements of the prosecution, the decision will not affect the trial of Schmitz and Ruef on the other charges against them, which will be proceeded with as rapidly as possible.

CRUSH IS OVER.

Subway Tunnel Relieves Congestion on Brooklyn Bridge.

New York, Jan. 11.—The Brooklyn bridge crush, which has for years been the wonder of all who looked on it from the outside and the bane of the existence of traffic superintendents and policemen and officials as well as those who had nightly to suffer from it, is over, according to the statements made by those who nightly tried to regulate it.

The new subway tunnel under the East river to Brooklyn ended its first day Thursday night with success to its credit.

Superintendent Reeves, of the Brooklyn bridge operating department, estimated that there was a falling off of 5,000 passengers an hour during the rush time on the trains, and it is estimated that the falling off on the surface cars which cross the bridge was at least 35 per cent.

Deadly Fight About Young Woman.

Somerset, Ky., Jan. 11—In an altercation at Shopville, Ky., between Postmaster Harvey McHargue and Claude Price, McHargue was shot and killed and Price was probably fatally stabbed. COL. "HAM" LEWIS DENIES

That He Said All Women Witnesses Are Perjurers.

Chicago, Jan. 11.—Colonel James Hamilton Lewis, a well known figure in Illinois politics and formerly congressman from the state of Washington, has made answer to a statement accusing him of saying in a lecture to northwestern university law students that all women witnesses are perjurers. He said:

"I never made such assertion in my life. I had referred analytically to different kinds of witnesses. I divided women witnesses into classes. After defining the method to be employed as to women witnesses generally, I concluded with the last class—the few who bring suits against men for money for certain well known alleged reasons. It was of this last class of women I said that revenge or stupidity was their purpose—and the oath a useless thing. They were there to accomplish their object. Of all other women I spoke in the terms that honorable and Christian men employ referring to good women."

FARMER'S UNION.

Resolutions Adopted Before Adjournment—Politics Barred.

Memphis, Tenn., Jan. 11.—The mass meeting of the Farmers' Educational and Co-Operative Union, which convened here Tuesday, adjourned sine die Thursday night after adopting the following resolutions:

"That any man holding office in the Farmer's Union who desires to run for any political office, either county, state or national, shall first resign his office in the Farmers' union.

"That any man now holding an office in the Farmers' Union, and at the same time holding a political office, shall be asked to give up his political office or resign his office in the Farmers' union.

"That we denounce and condemn future gambling in farm products.

"That we believe in dealing only in bona fide contracts.

"That we ask the national congress to enact such laws as will abolish and prohibit future gambling in farm products."

HIS AMBITION REALIZED.

Champion Wrestler Says He Is Now Ready to Retire.

Baltimore, Md., Jan. 11.—Frank Gotch, champion wrestler of America, has announced that he has made up his mind to retire at the end of this year. He says that the height of his ambition was to meet Hackenschmidt, and now that this seems for the first time likely to be realized, he is ready to quit wrestling.

Gotch received a letter from W. W. Wittig, of Milwaukee, urging a meeting at the earliest possible moment to sign with Hackenschmidt for the championship of the world.

Gotch says he will not have the match before May 1, and that Chicago doubtless will be the scene of the contest.

MISTAKEN FOR BANDITS.

Fatal Encounter Between German Travelers and Chileans.

Valparaiso, Chile, Jan. 11.—The encounter three days ago between a party of Germans and the residents of a hamlet about midway between this city and Santiago, in which one German was killed and five injured, has assumed a more serious aspect. The matter has been brought to the attention of the authorities by the German legation, and a thorough investigation will be made.

The Germans approached the village after dark and were mistaken by the inhabitants for bandits. The people fired on the travelers with the result above set forth.

SUIT OF OBERLIN M. CARTER

Federal Judge Kohlsaat Has Decided that the Government Is Entitled to $400,000 of Carter's Money Located by Marion Erwin.

Chicago, Jan. 11.—Judge Kohlsaat, in the United States circuit court, has rendered a decision in favor of the government in the suit of Captain Oberlin M. Carter, formerly United States army engineer, charged with having defrauded the United States of $700,000 through conspiracy with Contractors Greene and Gaynor.

The court ruled that Carter was not entitled to the $400,000 in Union Pacific registered railroad bonds and other securities traced by the government to safety deposit vaults and banks in various parts of the country.

Under the decision the government will retain these securities and the famous case, which resulted in the conviction of Captain Carter and of Greene and Gaynor and the imposing of penitentiary sentences, is brought to a close.

Funds Tied Up in Suits.

The funds of Captain Carter, which the government claims were proceeds of Carter's collusion with Greene and Gaynor, are tied up by suits pending in the federal courts of New York, New Jersey, West Virginia, Georgia and Illinois. By agreement all of these suits were consolidated and tried before Judge Kohlsaat in the United States circuit court in Chicago about a year ago. It is the claim of Carter that the funds in question were given him by his father-in-law, the late Robert P. Westcott, of New York.

The case grew out of the construction of certain river and harbor improvements on the coast of Georgia. The government prosecutors contended that the army officer and the contractors defrauded the government in the sum of $2,225,000 and that one third of this amount, or about $750,000, went to Captain Carter. Special assistant to the United States attorney general, Marion Erwin, was assigned to the prosecution of the cases and after several years' work $400,000 invested by Carter in various states was traced and seized. The hearing before Judge Kohlsaat extended over several weeks and scores of witnesses were examined.

STATE TO BUY 8,000,000 TAGS.

Let Contract for the Fertilizer Tags at 30 Cents Per Thousand.

Atlanta, Jan. 11.—The state department of agriculture has let the contract for furnishing fertilizer tags for the current year, 1908, to the Reyburn Manufacturing company of Philadelphia, at 30 cents per 1,000. The next lowest bid was 41 cents.

Under the specifications Georgia gets the same tag that is furnished to Louisiana at 56 cents per 1,000, a saving of $2,080 on the 8,000,000 for which the state has given its order.

The state of Georgia will pay for fertilizer tags this year a total of $2,400, and the number ordered will be sufficient to tag 800,000 tons of fertilizers.

Pekin, Jan. 10.—Further reports of the riots at Kia Hsing, a town in the province of Chekiang, declare the movement there to be anti-foreign. Services at Holy Trinity Episcopal Church, Rev. F. H. Craighill, will be as follows: Holy communion at 7 a. m.; morning prayer and sermon at 10:30; Sunday school at 3:30; evening prayer and sermon at 7:30. The furnace has arrived and is now in commission, assuring comfort for all.

Advent Christian Church—Sunday school at 10 a. m. At 11 a. m. the Rev. Mrs. M. McKinstry will deliver her famous lecture on "The Babylonian Empire," and at 7 p. m. her subject will be "The Medo-Persian Empire." Mrs. McKinstry arrived from Jacksonville on the noon train Friday and her maps and charts are all arranged in the church, ready for business. It is worth a visit to the church, just merely to see her charts, saying nothing of the lectures which cannot be duplicated by any other person living.

At St. Patrick's Catholic church, Rev. P. J. Lynch, there will be mass at 10 o'clock a. m., and devotion of the Holy Rosary and Benediction of Sacrament at 4 p. m.

The usual services will be held at the Church of Christ.

GENERAL LEE'S BIRTHDAY.

Kirby Smith Chapter Will Hold Exercises at Opera House Friday.

The committees of Kirby Smith Chapter, United Daughters of the Confederacy, appointed to arrange for the exercises upon the occasion of General Lee's birthday, met at the home of Mrs. J. M. Halle Saturday afternoon, when matters were discussed, and it was decided to hold a musicale at the opera house Friday evening, the 17th inst., at which may be heard some of the finest local talent in the city, as well as visiting talent, who have kindly consented to assist the ladies.

Owing to the fact that General Lee's birthday this year falls on Sunday, it was decided to hold the exercises on Friday. A small admission fee will be charged, the proceeds to be devoted to the University scholarship and the Old Soldiers' Home.

Further particulars will be given later.

Saturday's Fire.

An alarm of fire was turned in from Box 42 at 1:20 o'clock Saturday afternoon, which called the department with its usual promptness to the residence, 308 E. Union street, occupied by Dr. Clyde L. Carter and family.

The alarm at first caused a great deal of excitement, as the wind was very high, but it was soon ascertained that the flames could easily be kept down, owing to the promptness in which the alarm was responded to.

There was no damage, other than the damage caused by cutting the roof in order to get to the flames.

The origin of the fire was from a defective flue.

Scofield Sells Property.

Geo. H. Scofield, who has made his home at Bell for the past few years, and who was engaged in the mercantile business there, has disposed of his interests to W. N. Fowler, selling both his mercantile interests and his home. It is understood that Mr. Scofield will locate in South Florida.

George Taylor Explains.

The Sun was in communication with George Taylor of Palmer by telephone Saturday, in the matter of an interview which appeared in The Times-Union of the 8th inst., quoting Mr. Taylor, who is a commissioner or representative from Alachua county to the Mid-Winter Fair at Jacksonville.

While the interview does not say so, it would be inferred that Mr. Taylor had assured that management of the fair that Alachua county would be present with a large general exhibit, when Mr. Taylor intended to convey the expression that the county would have a good stock exhibit, and possibly good mineral, cotton and naval stores displays.

No effort is being made for a general exhibit, but only the lines above referred to will be seriously considered.

TO REORGANIZE BAND.

Gainesville Musicians Are Ambitious That Band Shall be Reorganized.

There seems to be manifested a great deal of interest among the musicians of this city in the matter of reorganizing the band, and with a view to ascertain as near as possible the practicability of doing so, a special meeting of the band musicians will be held at Edwards' Opera House Monday evening at half-past 7 o'clock.

All interested in this project are cordially invited to be present, and lend their aid in every way possible. Band musicians are extended a special invitation.

A good band is one of the best advertisements a city could have, and it is to be hoped that this meeting will prove fruitful.

Shipping Syrup to England.

It seems more a story of "hot air" than a fact, but it is a fact that M. B. Saunders a few days ago shipped a gallon of syrup to Kent county, England, the consignee being C. R. Hodges, an Englishman who was for some time a resident of the English Colony, near this city, but who later returned to his European home.

Mr. Hodges wrote Mr. Saunders that he was satisfied back in his old home, but that his greatest longing was for Florida syrup—"the kind he used to get." He consequently enclosed the price of a gallon, which Mr. Saunders sent by express, the charges being $2.45—about five times the value of the syrup.

Rates for display advertising made known on application.

The Twice-a-Week Sun is an eight-page, forty-column paper, published every Monday and Thursday, and contains all the news of the week, local, State and general, and will be mailed, postage free, to any part of the United States or Canada, for $1.00 a year—in advance.

All advertising bills become due after first appearance of advertisement, unless otherwise stipulated in contract. Parties not known to us will be required to pay for advertising in advance. Address, THE DAILY SUN, GAINESVILLE, FLA.

The Thaw trial attracts little attention in this section of the country.

Pass the "dead beat" tenant along until he has to pay rent or live outdoors.

There's not an advertisement printed in this paper today that is not informing or interesting.

Once more the fated number—twenty-three insurance companies have withdrawn from Wisconsin!

In case the secession in trade continues the opponents of prohibition will soon be saying, "I told you so."

Don't be stingy with tips to hostlers. One of them may die and leave you $70,000. This happened in Pennsylvania—and a hotel clerk got it!

To look over the advertising columns of the Gainesville papers one would conclude that there were no hotels or boarding houses in the city.

Even the price of convict labor has "slumped" about ten dollars per month. This will make quite a difference to the treasury of Alachua county.

Things that are "going wrong" in the home or office usually drive people to the classified ads. for relief. Will a want ad. "help some" in your own particular difficulty?

In Duval county candidates are already making formal announcement, illustrating their "spiels" in the newspapers with pictures of themselves. Discourage the idea in Alachua county.

The merchant who advertises less this year than last thus deliberately starts to travel backward on the store-highway—starts to unravel the business fabric which he has been weaving.

"Colorado wind blew a train off the track," says The Nashville American. What is there so strange about that? One windbag sometimes is fully capable of upsetting an entire railway system.

Hon. John S. Beard still has hopes of Governor Broward calling an extra session of the Legislature, according to a circular letter he has recently sent out to members of the Legislature.

A fraternal order classifies working in breweries as "hazardous employment;" railroad switchmen's work is considered safe. Might waive the former clause for a week or two, at least.

Mr. Chas. B. Hanford is billed to appear in several Kansas towns in the title role of "Anthony and Cleopatra." Rather a strenuous undertaking to double those parts, but we suppose it is necessary in these days of financial flurries.

"A word to the wise is sufficient," and this, thinks The Cleveland Leader, is why the lawyer thinks it necessary to "fire about 40,000 words at the average jury." And why Mr. Roosevelt thinks it is necessary to fire about 35,000 words at Congress.

THE GOVERNORSHIP.

The editor of The Sun has been asked the question more than once during the past few months as to why he was supporting John N. C. Stockton for Governor now, when he opposed him for United States Senator four years ago. The answer is easy: We believed then, as we do now, that Senator Taliaferro was better fitted for the duties of Senator than Mr. Stockton, and that he could be of far more benefit to the people in that position; and were the two men running for the United States Senate today we would be found supporting Senator Taliferro now as we did then. But Mr. Stockton is running for Governor, and the editor of The Sun believes him to be especially fitted for the responsible duties of this office. We have known Mr. Stockton intimately for seventeen years, and we have always admired him for his manly traits of character, especially his rugged honesty in his dealings with his fellow-citizens. Not even Stockton's most bitter political enemies have ever questioned his honesty, and no one can gainsay his executive ability. In espousing the cause of Senator Taliaferro four years ago The Sun in no instance abused John Stockton, or even permitted anything in its advertising columns derogatory to him personally. We have "fit, bled and died" with John Stockton on more than one occasion because we believed him to be right, and we are going to do all we can to place him in the gubernatorial chair, because we believe him to be the best man in the race for that position.

James H. Reed, president of the Philadelphia Company, and a close friend of Senator Knox, speaking in Pittsburg, said: "We have had enough of Rooseveltism for some time." Senator Dolliver of Iowa, in a speech on the following day, called the Roosevelt movement "the great awakening of the consciences of our people under the most superb leadership I have ever known." Take your choice!

It is a noticeable fact that the apparent opposition to Congressman Frank Clark comes from the cities. His work in Congress has been more along the line of help to the farmer. He realizes that boards of trade in the big towns can look after business matters, but the tillers of the soil must have affairs attended to by one in absolute sympathy with them.—Starke Telegraph.

Mr. Henry M. Flagler, president of the Florida East Coast railway and the great developer of the east coast of this State, celebrated his 78th birthday on Thursday, Jan. 2nd. This is one man to whom talents were given, of whom it can never be said that he "hid them in a napkin." May his life be spared in health for many years.—Palatka News.

That Wilkes-Barre youth who has invented a wireless telephone that sends and receives its sound waves through the earth instead of through the air, might be able to sell it to one of the many Presidential aspirants who are lying with their ears to the ground and trying to find out what their political chances are.

It is amusing to note the "interest" editors friendly to the announced candidates for United States Senator pretend to manifest in Congressman Sparkman remaining in the House. They realize that he is a sure winner if he enters the race for the Senate.

The financial tide has turned, says the bank statement. May the waters of the flood be of a bright green-and-yellow!

TRAGEDY NEAR COCHRAN.

Two Negroes Lynched for Attacking Farmer and Wife.

Cochran, Ga., Jan. 11.—Reports of an awful tragedy and the lynching of two negroes near this place on Wednesday have been received.

Henry Coley and another negro entered the home of Martin Livingston, a well-to-do farmer, attacked Mr. and Mrs. Livingston with pistols, knives and clubs.

Thinking their victims dead, the would-be murderers then ransacked the house, and were in the act of leaving when a number of people, attracted by the startling wails and screams of Livingston and his wife, approached the house and caught Coley before he escaped. The other negro, whose name cannot be learned, got away, but was caught before day, and later they both were swinging in the air, fairly riddled with bullets, and left to be cut down by the coroner.

The fearful news spread like wildfire, and caused considerable excitement in and beyond Cochran.

Victims Enroute to Atlanta, Ga.

Portland, Oreg., Jan. 11.—Mrs. Boyd, who until recently of 123456 Boyd and her son, who were killed in the Southern Pacific wreck near San Jose, were the wife and son of Rev. A. P. Boyd, who until recently was the pastor of the Sellwood Methodist Episcopal church in this city. Mr. Boyd had secured a transfer from the Sellwood church to a Methodist church of Atlanta, Ga. The family was enroute to that city when the accident occurred. Mrs. Boyd's family home is in Detroit, Mich.

THE PEOPLE ALL

In Chorus Cried, Give Us Newbro's Herpicide.

This word of late has been in everyone's mouth, and many are wondering what the word signifies, though no one has yet been found who will deny that NEWBRO'S HERPICIDE does the work. Well, for the information of thousands of people who like to know all about a good thing, we would say that HERPICIDE means, a destroyer or killer of "Herpes." Now "Herpes" is the family name of a disease caused by various vegetable parasites. A similar microbe causes dandruff, itching scalp, and falling hair; this is the microbe that NEWBRO'S HERPICIDE promptly destroys; after which the hair grows. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

Liquor dealers who were put out of business on January 1st in Alabama, when many of the counties went dry, are flocking to Pensacola and other places in Florida, where they are allowed to sell liquor.

The County Commissioners of Lafayette have decided to build a new court house. The plans as accepted call for a two-story building of Indiana limestone, with inner walls of brick; building to be 64x92 feet, with all modern conveniences. The price will be $47,000.

It is rather unusual to hear of one requesting to be sent to jail for thirty days, but such was the case in Jacksonville the other day, when a healthy-looking "hobo" walked in and asked Sergeant Minor of the police headquarters if he could not be sent to jail for thirty days.

Madison has a new hotel. The Merchants, which is built of brick throughout, two stories in heighth, with ample and broad verandas, large sample rooms and every convenience of water, bath, rooms en suite, electric bells and other things that go to the making of an up-to-date hotel.

The ceremonies attendant on the unveiling of the Confederate monument which was to have been erected in Ocala on the 18th of this month have been postponed. It was found impossible to get the monument there in time for the services to be held on that day, hence the postponement.

There has not been a day since the middle of November that strawberries could not have been gathered in reasonable abundance in the vicinity of Lakeland, The News says, and scarcely a day this winter when strawberries will not be shipped from that and nearby stations, so long as it is profitable to do so.

Twelve hundred men will be given employment tomorrow morning in the various cigar factories of the Havana-American Company in Tampa. Other factories have decided to follow suit, which will mean the placing of considerable more money in circulation in that city than there has been for the past several weeks.

The fishermen of Miami a few days since struck against the Greek fishermen that were becoming quite numerous and threatening to absorb the business of mackerel fishing in that section. The boat owners acceded to the demands of the American workmen and in consequence the Greek and Italian fishermen are out of a job.

A report on the operation of the electric light plant owned by the city of Ocala shows that the plant, above operating expenses, had earned a profit during the past twelve months of $4,150, besides paying for improvements in the sum of $5,525. The plant is being well managed and the prospects are that it will pay still larger dividends in the future.

Contrary to the current belief that the lay-off of men in the cigar factories of Tampa for the holidays would continue for some time, an investigation brought forth the pleasing facts that, while many of the large factories are already working almost full force, which is unprecedented for this time of the year, the other factories will be working on full time in less than a week.

The police of Key West made a raid on a monte game in which there were about fifty Cubans engaged. One of the police was standing at the table before the players were aware that they were in danger. At the cry of "police" the lights all went out and the most of the Cubans got away by jumping from the up-stairs window. The dealer and the "kitty" were secured and fined $90 in the municipal court.

Several years ago the Dunnellon Phosphate Company brought suit in the circuit court of Marion county against the A. C. L. railroad for unreasonable charges on phosphate shipments in excess of the rate fixed by the railroad commission. The case has just been settled by the last term of the circuit court in Marion county by the A. C. L. paying to the Dunnellon Phosphate Company the amount of $33,000.

Mr. Richard Cummings reports the champion stock log of Florida. It was cut near Moccasin Slough by Robt. Hatchcock on land owned by the Cypress Lumber Company of Pensacola. This log of cypress measures 40 feet in length and is 72 inches in diameter at the small end. It contains 11,562 feet, board measure, and is probably the largest stick of timber ever cut in Florida. The log will be cut into boards at one of the mills in Apalachicola.

Charles Carter, a fisherman, who was injured Christmas day by a freight train on the Seaboard Air Line, has entered suit for $10,000 damages through his attorney, E. R. Dickenson, against the company. The accident occurred at the corner of Franklin street. Carter was crossing the railroad tracks and did not observe a freight train which was backing into the depot until the car was close upon him and then a negro trainman hallooed to him, but it was too late, and the man was thrown, receiving very serious injuries to his spine. He will be unable to do any work as a fisherman on account of the injuries received and will only be able to do light labor in the future. He is still confined to his bed as a result of the injuries received.—Tampa Tribune.

SCHUYLER VAN NESS DEAD.

Once a "Barker" for P. T. Barnum and Famous Baseball "Rooter."

New York, Jan. 11.—Once a "barker" for P. T. Barnum in the days of that showman's famous museum here, but more widely known as the "Weswell, well" man of the polo grounds Schuyler Van Ness, member of a prominent family, with whose members however, he had little communication in the last quarter of a century, died in the city morgue, where his body was taken after the fatal termination of an attack of nephritis at Bellevue hospital.

His far-carrying cry from the bleachers had resounded during the progress of hundreds of baseball games in which the New York "Giants" participated, the height of his fame as a "rooter" having been reached perhaps shortly after the club removed to their new grounds.

Of late years Van Ness had lost much of his old-time prestige, numerous imitators of his tactics having made them offensively monotonous.

Curtailment in Production Will Soon Be Called Off.

Only small dealers will listen to orders for iron under $13.50 per ton, No. 2 foundry.

THE PERFECT WAY

Scores of Florida Citizens Have Learned It.

If you suffer from backache, there is only one way to cure it.

The perfect way is to cure the kidneys.

A bad back means sick kidneys.

Neglect it, urinary troubles follow.

Doan's Kidney Pills are made for kidneys only.

S. B. Lemons, cigar maker, living at 1311 Ashley Street, Tampa, Fla., says: "I used Doan's Kidney Pills and they cured me of backache and disorder of the kidneys. Two or three times on account of the pain in my back I was unable to work for several days. The secretions of the kidneys were in a very bad condition, dark in color, and if allowed to stand would become of the consistency of jelly. I tried various remedies, taking what seemed like gallons of medicine and I also put on plasters, but nothing helped me at all until I got Doan's Kidney Pills upon the advice of a friend of mine, and using them according to directions they cured me in a very short time."

BURGLARS GOT INTO EVANS' STORE

Stole Clothing, Jewelry and Other Things of Value.

WENT THROUGH REAR WINDOW

Forced Open Shutter, Found Things Easy, and Proceeded to Stock Up on Everything Desirable—No Clue Yet Found of Offenders of Law.

For the past few weeks, from time to time, it has been reported that robbers, or burglars, have been getting in their work in this city, and, despite the efforts of the officers to apprehended the offenders, so far they have been unable to secure a clue which would lead to the arrest of anyone.

The last victim of these light-fingered pilferers, who carry their nerve with them in the same sack with their tools, evidently, was J. C. Evans, proprietor of the Evans Racket Store, on West Union street.

Mr. Evans came to his store Friday morning, to find that the place had been robbed, as he discovered that the shutters had been forced open, and an entrance had been secured through a window. Mr. Evans noticed a general confusion in the arrangement of his clothing, etc., which he usually keeps in systematic shape, and upon investigating discovered that his store had been visited during the night by a burglar.

Several articles were missing, including jewelry, clothing, etc., but Mr. Evans declares it is impossible to determine just what the party or parties took away, as he could not tell just now how much stock he had on hand.

The police were notified of this robbery, but have been unable so far to find a clue.

Mr. Evans stated that an investigation in the back-yard developed that the burglar dropped a pair of pants, but either did not realize that he had lost them, or was frightened away in such a rush that he did not have time to pick them up in the dark.

Man Creates a Sensation in a Local Theater at Lynn, Mass.

Lynn, Mass., Jan. 11—Furious over the treatment accorded by the villain to the heroine of a play at a local theater Thursday night, George Munroe jumped on the stage, and after driving the actor who played the part of the villain off the stage, seized the heroine in his arms and declared he would defend her.

Stage hands attempted to drive Munroe from the stage, but he seized a fire ax and refused to leave until he was overpowered by six policemen.

New York, Jan. 11—Mrs. Ruth Kim, a pretty little Japanese widow, has entered suit against Jim Fook, a Chinaman, who runs a restaurant in New York, claiming $20,000 damages for breach of promise of marriage. Mrs. Kim says Fook proposed and was accepted, the bargain being sealed by the presentation and acceptance of an engagement ring. Fook denies that he ever proposed to the Japanese widow, and declares that he simply hired her to work in his restaurant.

COLDS AND GRIP

A Home Treatment Better Than Drugging

The best general treatment for colds, and usually much better than drugging, is to create bodily warmth to make up for the heat that is lost. Treat it at the beginning by a hot bath, or if not convenient to get into a bath tub take hot mustard and water foot bath, and go to bed at once, taking a hot drink of lemonade, milk, tea, or other non-alcoholic drink. Rub briskly over the throat and chest with

MINARD'S LINIMENT

Sleep between blankets, be careful to keep the arms and body well covered, and remember that the sweating is evidence that you are overcoming the cold, so above all don't undo the benefit by throwing off the clothes if you feel a little uncomfortable. A thorough rubbing of the throat and chest with Minard's Liniment will, besides giving relief, do much to prevent recurrence of the cold, and also be strong measure of protection against any of the serious complications resulting from colds.

Pensacola, Fla., Jan. 11.—Fifty more skilled workmen lost their jobs when there was another reduction in the forces at the Pensacola navy yard, making the second to occur within the past ten days, and letting out nearly one hundred men, who drew large salaries.

The reduction was in the department of construction and repair, and the men let out are iron and shipworkers. The lack of work at the yard is assigned for the big reduction.

Alfred Vanderbilt Sued.

New York, Jan. 11.—Alfred G. Vanderbilt has been sued by Francios Richard for $5,000 claimed to be due for work he did in building for Vanderbilt a racing automobile for the races at Ormonde Beach in 1905. After the car reached Ormonde it was discovered that four of the eight cylinders refused to work. Mr. Vanderbilt withdrew his entry. His experiment had cost him $20,000, but he refuses to pay the $5,000 on the ground that the car had not met requirements.

THE PEERAGE.

Curious Points About the Nobility of Great Britain.

It will doubtless be news to the majority of people that it is within the power of the British parliament to deprive a peer of his peerage. This would only be done, however, on grounds of public policy, and such a proceeding is naturally of a very exceptional character. As a matter of fact, there is only one instance to be found on record of a deprivation of this kind. In the reign of Edward IV. George Neville, duke of Bedford, was stripped of his title and dignity on the grounds of poverty, and he died a commoner in 1483. The existing dukedom of Bedford was not created until more than a couple of centuries later.

The many people who of late years have brought forward claims to titles generally regarded as extinct and the lands which go with them may take courage from the fact that peerages die hard. In the Hastings case, for instance, the peerage was claimed and the title thereto established in 1841 after remaining unclaimed 450 years, while in 1839 the Camoys title was successfully claimed after the peerage had been in abeyance for 420 years.

There are at the present day five degrees of peerage—namely, duke, marquis, earl, viscount and baron—although for nearly 300 years from the time of the Conqueror to the reign of Edward III. there were only two, earl and baron. The latter degree is the most ancient, dating from the conquest, while it is a singular fact that no new degree of peerage has been introduced since the reign of Henry VI., who created the title of viscount in 1440.

Regarding the marriage of peers, there are one or two points which may be interesting. When a peer marries a commoner, the latter becomes a peeress and fully entitled to the privileges of peerage other than the right to sit in parliament. Furthermore, she remains noble, notwithstanding the death of her husband. If, however, during her widowhood she marries a commoner then she ceases to be a peeress. On the other hand, a peeress in her own right who is married to a commoner still remains a peeress, but does not impart her nobility to her husband. A well known example of this law, of course, was furnished by the marriage of Baroness Burdett-Coutts to William Ashmead Bartlett, who simply adopted the name of Mr. Burdett-Coutts.

Much has been written at one time or another concerning the rights, duties and privileges of peerage. Here are one or two points, however, which are not common knowledge. An English peer has the right to a summons in parliament, but he is not permitted to sit in the house until he is twenty-one years of age. Neither can a peer do so who is an undischarged bankrupt.—St. Louis Post-Dispatch.

BLOOD POISON
HUMILIATING-VILE-DESTRUCTIVE

The first symptom of Contagious Blood Poison is usually a little sore or ulcer, which is quickly followed by a red rash on the skin, swollen glands in the groin, falling hair, ulcerated mouth and throat, and often copper colored splotches on different parts of the body. As the blood becomes more fully contaminated with the poison, pustular eruptions and sores break out on the flesh, and in extreme cases the nerves and bones are attacked and the finger nails drop off. Then the sufferers find themselves diseased from head to foot with this humiliating, vile and destructive poison. No other disease is so highly contagious; many an innocent person has been inoculated by handling the clothing or using the toilet articles of an infected person. There is but one certain, reliable cure for Contagious Blood Poison, and that is S. S. S. It attacks the disease in the right way by going down into the circulation, and neutralizing and forcing out every particle of the poison. It makes the blood pure and rich, tones up the system, and completely and permanently cures this disease. S. S. S. has cured thousands of cases of Contagious Blood Poison. If you are suffering with this debasing and destructive disease begin the use of S. S. S. and get the poison out of your blood before it permanently wrecks your health. We have a home treatment book on the disease which we will send free to all who wish it, and in addition our physicians will give without charge any medical advice needed. SPEECH OF PARROTS.

Do These Birds Understand What They Talk About?

Those of us who possess talking parrots are often asked the question, "Do you think they really understand what they say?" Sometimes I have been inclined to say "Yes," so striking has been the fitness of the birds' remarks; at other times, "No." When a bird has been carefully taught or has learned from his own observation a considerable number of set phrases and sentences, there are certain to arise occasions when one or another of his exclamations fits in happily with the conversation or circumstances of the moment. Some few instances of such coincidences (for every one of which I can vouch) may interest your circle of readers. Some years we were presented with a young green parrot. The bird must have been only a few months old, as she gave no sign of her red tail. This, however, quickly appeared, and Polly soon gave evidences that she was listening to sounds and learning to reproduce them. We now began to give her talking lessons by continually repeating over and over again set words or phrases and were soon repaid for our pains. Polly began to talk and quickly mastered a good many of her lessons. She added a good many self acquired accomplishments, such as cab calls, milkmen's and paper boys' cries and the cawing of rooks. Her piercing whistle would often cause the milkman to stop and look around, thinking the call was for him. Polly also learned to imitate the song of the canary. She would look up at her little yellow mate in her cage above and call her "Sweet, sweet, pretty little Dick; pretty little Dick."

On one occasion the dressmaker was ushered into the dining room and was startled by the bird exclaiming: "Hello! What's your name? What do you want?" She surprised a lady visitor on one occasion with the rather unusual inquiry, "Are you nice?" About this time I was suffering from a very painful complaint, and it would almost seem as if my suffering drew out the bird's sympathy, for on one occasion she said to me: "Hello! What's the matter with you? Are you quite well?" I replied, "No, not quite well, Polly," whereupon she replied, "Not quite well." She was once in the room where a member of the family was practicing singing and presently made the remark, emphasizing the last word, "What's the matter with you?" When signs of going out for a walk are apparent we are invariably and repeatedly bidden "Goodby, goodby," with the accompaniment of many kisses. Upon our return Polly inquires, "Where have you been?" and upon being informed usually replies, "Glad to see you back."

During last winter my wife was one morning putting up an old stove for Polly's benefit near her cage. On the half landing the bird watched her with great interest and presently said, "Do you feel cold?" "Count your blessings" was a phrase Polly found great difficulty in mastering, "Count your bless" being all she succeeded in uttering and soon dropping this as too troublesome. However, after a time we tried her again. Now she drops out the "bless" and solemnly exhorts us to "Count your, count your—sins." A few weeks ago a servant was engaged in polishing brasswork near Polly's cage, and the bird immediately started talking to her. "Hello, Polly! What do you want? What's the matter with you? Are you quite well? Do you feel cold? Where have you been?" and much more. Eliciting no reply, she shouted out, "Why don't you talk?" and drew the retort from the woman, "Because I am too busy, Polly." Polly replied, "How shocking!"—H. Dann in London Spectator.

A Vague Prescription.

One of the virtues of the modern physician is definiteness of direction. To prescribe a dose "once in so often" is to leave a wide margin of chance, especially if the drug be a potent one. Let it be hoped that the good man whose prescription is quoted below was not dealing in strychnine nor prussic acid. The letter is taken from "Highways and Byways In Sussex" by E. V. Lucas and was written by the doctor in an English village a century ago:

Mr. Andrews—I have sent you some things which you may take in the manner following, viz: of that in the bottle marked with a + you may take of the quantity of a spoonful or so, now and then, and at night take some of those pills, drinking a little warm beer after it, and in the morning take 2 spoonfuls of that in the other bottle, fasting an hour after it, and then you may eat something. you may take also of the first and every night a pill and in the morning.

I hope this will do you good which is the desire of him who is your loving friend. WILLIAM BENBRIGG.

THE FREEZING PROCESS.

Why It Is That Ice at Times Will Crack or Burst.

Ice never bursts from freezing. As soon as the liquid of which it is composed is frozen solid expansion ceases. The cracking or bursting of ice is brought about in this way: When water is subjected to extreme cold ice crystals will gradually form on its surface until the same are covered with a thin coat of what appears to be wet snow. From this outer coating of ice crystals all subsequent freezing goes downward, the ice thickening according to the degree of cold. The water which is being converted into ice now begins to expand, creating a pressure upon the unfrozen water below. This pressure is both downward and outward, and in case the water under observation is in a vessel the sides and bottom of the receptacle supply the resistance.

As the freezing process continues the pressure upon the confined water and air in the interior of the bulk increases until something yields. If the vessel be stronger than the ice stratum that has formed over the surface the layer of ice will be bent upward at the center, that being the weakest point, on account of the fact that the outer edges of the congealed mass are frozen fast to the sides of the vessel in which the experiment is being made. In this condition the center of the ice continues to rise or bulge until it bursts from the resistance of the water below. Could the vessel be tapped from below and the water drawn off no amount of freezing would be sufficient to crack or bulge the ice layer on the surface.

An Insidious Danger.

One of the worst features of kidney trouble is that it is an insidious disease and before the victim realizes his danger he may have a fatal malady. Take Foley's Kidney Cure at the first sign of trouble, as it corrects irregularities and prevents Bright's disease and diabetes. J. W. McCollum & Co.

It Might Have Been Worse.

Mark Twain, during one of his lecture tours, was waiting at a station for a delayed train. The lecture committee and several townsmen were with him and talking their best to pass the time away. One man told about a frightfully unhealthy town he had read about, and it was a grewsome tale of dying and burials and that sort. "It might have been worse." Twain followed, in his slow and direct manner. "I lived in that same town for two years, and I never died once—not a single time." The way he said it seemed to daze the crowd, and not a man said a word in response. "Of course you may think I'm lying," the humorist continued, "and I'm sorry, for I can't get any witnesses to testify that I didn't, because everybody else that lived there is dead."

How to Avoid Pneumonia.

You can avoid pneumonia and other serious results from a cold by taking Foley's Honey and Tar. It stops the cough and expels the cold from the system as it is mildly laxative. Refuse any but the genuine in the yellow package. J. W. McCollum & Co.
